Mastering Multiplication Tables

Subject: Math | Grade: 3 | Generated: February 05, 2026

■ Concept Explanation

Remember, multiplication tables are like a map to help us find the answers to multiplication problems. The more we practice, the easier it gets! So, let's get started and become multiplication masters!

■ Worked Examples

Example 1

Problem: 2 x 6 = ?

Solution:
To solve this, we can think of 2 groups of 6. 6 + 6 = 12, so 2 x 6 = 12.

Example 2

Problem: 5 x 3 = ?

Solution:
Here, we have 5 groups of 3. 3 + 3 + 3 + 3 + 3 = 15, so 5 x 3 = 15.

Example 3

Problem: 4 x 9 = ?

Solution:
For this one, imagine 4 groups of 9. 9 + 9 + 9 + 9 = 36, so 4 x 9 = 36.

■ Practice Questions

1. 1 x 8 = ? [EASY]

2. 6 x 5 = ? [MEDIUM]

3. 9 x 3 = ? [MEDIUM]

4. 7 x 2 = ? [EASY]

5. 8 x 6 = ? [HARD]

■ Answer Key

1. 8

2. 30

3. 27

4. 14

5. 48
